

Sage 50 Payroll: Auto Enrolment Edition

and The Pensions Module

Prepare for **Automatic Enrolment**

What's new in Sage 50 Payroll: Auto Enrolment Edition?

The introduction of Automatic Enrolment legislation means you'll have new legal duties to help your employees save for retirement. It'll mean a big change to the way that you manage your employees' pension; and the legislation carries with it a significant amount of administrative obligations.

Pensions Centre

All the knowledge, tools and resources you need to create the most seamless and stress free move into Automatic Enrolment for your business in the most user friendly format possible.

HMRC Reconciliation

HMRC reconciliation quickly provides all the information you need to answer your payroll queries on data and values sent to HMRC **quickly, effectively and without stress**. Now included in Show Me How.

Sage Business Community

The Sage Business Community is an exclusive online environment for Sage Cover customers where business advice and support is exchanged **24/7** and it's now available from directly within Sage 50 Payroll.

The Pensions Module

Sage 50 Payroll Auto Enrolment Edition will help you prepare for Auto Enrolment. To complement this we are also introducing **The Pensions Module**, an additional paid for feature which will **automate the process**, eliminating the on-going day to day administration burden of Automatic Enrolment.

Sage 50 Payroll: Auto Enrolment Edition together with The Pensions Module will eliminate the burden of Automatic Enrolment for you and your business.

Upgrading from v2011

Helping you manage RTI

Sage 50 Payroll is designed to make the RTI process as simple and efficient as possible:

Peace of mind

Relax knowing you're fully up to speed with the latest employment legislation and your calculations are accurate.

As well as being fully RTI compliant, Sage 50 Payroll incorporates the latest National Minimum Wage rates and tax parameters, and makes sure you can provide your people with information they request as required by law.

Because it's compliant and recognised by HM Revenue & Customs (HMRC), you can be confident that you've all the essentials like tax, National Insurance and statutory payments covered.

RTI Centre

Integral to the software, the RTI Centre is a one-stop-shop to all the RTI help and support you need. It's a constant reference point for all vital RTI information.

RTI Data Health Check

Ensuring your data is correct and ready for submission, the RTI Data Health Check will save you time and resources. It checks data, spots errors and provides solutions.

RTI Submissions Log

The RTI Submissions log will enable you to keep track of internet submissions made to HMRC. This is particularly useful when you want to check if a submission was successful, whether it failed or if HMRC have a submission query.

Report Browser

The new Report Browser will enable you to browse, navigating to the reports you need to print, email or export and giving you an easier, more efficient and memorable reporting experience.

Show Me How Videos

This dynamic feature lets you watch instructional videos as you work in the software, helping you through different payroll processes click by click.

What else has been included in Sage 50 Payroll since your version?

Improved Salary Sacrifice Deductions

The enhanced salary sacrifice feature enables you to set up and define salary deductions for Childcare Vouchers, Cycle to Work schemes and many more. Sage 50 Payroll will automatically ensure that your employees' Childcare Vouchers do not exceed the maximum tax relief they are entitled to receive.

Sage 50 Payroll and HR synchronisation

Automatically integrate data from Sage 50 Payroll to Sage 50 HR (v4). The ability to automatically synchronise information between your Payroll and HR software gives you greater control, saves you time and ensures your employee data is always kept up-to-date.
